Jack has been involved in the Square Dance activity since 1951. With Bob Ruff he has created teaching albums on the Sets In Order label and teaches extension courses for several Universities, including techniques for teaching Square Dancing in Schools. Jack is the Director of Instructional Services for Sutter County (Calif.) Schools. He holds a dream that some day our School programs will include Square Dancing as they do other activities.

CALLER-TEACHER .. DO YOUR DANCES GET SMILES OR FROWNS? by Jack Murtha

A caller need not be a genius to observe that people learning to square dance vary greatly in the ease with which they learn to respond to his calls. The caller does need to be a genius to figure out how to deal with these great variations among beginners in his classes!

Public schooling has been faced with these problems for years, and many of the profession's finest minds have applied themselves to the task of learning how to help teachers. The results of their research identify many causes of the problems and provoke fascinating discussions about ways to use the facts that are known to help teachers and students interact in classes.

Teaching square dance classes bears an amazing resemblance to teaching a physical education class...or a language class...or a music class...or almost any other class in which students learn their skills from a specially trained teacher.

One concept which has recently arrived on the school scene is called Mastery Learning. Developed as a result of research by several noted educators, the idea has intriguing possible applications to square dance classes. In order to understand the bases of the concept, pretend you are a public school teacher and have been asked: "What percentage of your students are able to earn "A" grades in your classes?" Most teachers will answer that between 5% and 15% of those enrolled in their classes are "A" students.

How about a teacher who says 95% of his students are able to legitimately earn "A" grades in his classes!

Dr. Benjamin Bloom of University of Chicago says that up to 95% of the students taught by Mastery Learning techniques can earn "A" grades. The main difference is in how long and how much quality instruction the teacher provides the student earning the grade. In many school classes, the teacher presents the same lessons to everyone and each is allowed the same amount of time to learn the tasks. At the end of ten weeks, the class ends and everyone is graded. Sure enough there are some "A" and "B" grades, some "C" and "D" and some "F" grades.

What makes the difference between "A" grades and "F" grades? These educators say a major factor is learning rate. Some people simply learn given skills faster than others. NOT BETTER--JUST FASTER. Classes are often set up so those who learn most rapidly earn "A" grades and those who learn more slowly earn lesser grades.

A principle rule in Mastery Learning is that every pupil have adequate time to earn the "A", or said another way, master the tasks.

Do you recognize the square dance class? We give 30 weeks of lessons, and those who are rapid learners receive smiles while our slower friends get frowns. If what these educators say is true only five out of every 100 class members are really not able to master mainstream square dancing. Bloom would say most class members could earn smiles if we allowed each of them the time needed to earn the top grade.

Mastery Learning involves some fairly simple ideas:

The new dancer must feel he or she can & wants to learn.
The new dancer must have the opportunity to learn which means:

- enough time to learn
- good quality of instruction
- the ability to learn

Unfortunately, there are many problems both in public schools and in square dancing that prevent us from holding Mastery Learning classes. The idea is so logical and simple, but the realization is very complex and difficult. These factors are involved:

Learning rate varies by a ratio of 6 to 1. This means it takes up to six times as long for the slower student to learn a skill to the same level as his most able classmate. If the best dancer in class can master Transfer The Column after 20 correct tries, another dancer in the same class may Quality of instruction is much more a problem for the slower student than for the faster one. The most able learner will learn regardless of whether the quality of instruction is good or poor. The class member who takes longer to learn hasn't a chance if the quality of instruction is poor. Quality in this sense refers to:

The teacher's ability to properly sequence the order of presentation.

The teacher's ability to require that each stage be mastered before the next stage is added.

The teacher's ability to diagnose students difficulties.

The teacher's mastery of the subject matter.

The teacher's ability to motivate practice time.

Prior learning and experience. The training and knowledge a new dancer brings with him when he joins the class makes a difference. Perseverance will often outweigh many other factors in determining who masters the skills and who doesn't. Self-fulfilling prophecies influence success. Both teachers and students work hard to make their early predictions come true.

All above are factors verified by research as affecting the student's ability to master a task, skill or subject. The despair of many educational leaders is that even though we know what must be done to allow our students to learn to mastery, not many classes are organized to allow such learning to happen. The same is true in Square Dancing.>>

THE POST OFFICE WILL NOT FORWARD YOUR SQUARE DANCE NEWS!

How well do your class and club members know the mainstream basics? As in school, there must be a system to evaluate how well your students have learned what was taught. There are many possible evaluation techniques, but let me suggest two you might want to try:

Evaluation Idea #1

Step 1 - Dig out the enrollment lists for all the square dance classes you taught or the club sponsored three years ago.

Step 2 - Identify every person who graduated.

Step 3 - Contact each of them to determine if they are still dancing at least twice a month. It doesn't matter where or who with.

Step 4 - Determine the percentage of the class members who are still dancing.

Square dance leaders often quote the statistic that the average dancer drops out after three years. This means that 50% of your class members can be expected to have dropped out. Is your percentage higher or lower?

Evaluation Idea #2

Step 1 - Take the 1976 mainstream premium record put out by Square Dancing Magazine to one (or more) club nights and have the club members dance the bands on the record. Note three of the eight bands that the whole club is able to dance without a breakdown or walk through.

Step 2 - Just prior to graduation, play the same three bands for your new dancer class. Note whether or not they can dance all three bands on the first try without a breakdown or walk through. If so, the class has achieved Mastery Learning.

Step 3 - If not, follow the same process using the extended (75) basic record and/or the basic (50) record from the 1976 series. Determine the level the class has mastered. If the class cannot dance three bands of either record on the first try without a breakdown or walk through, they have not mastered any level of square dancing and may expect some problems at mainstream party dances.

I've written about problems, research and evaluation. If any callers or dancers who read this are interested in suggesting solutions, write to me. I'd like to hear from anyone who is retaining over 50% of their graduates for more than three years and from those whose new dancer class can dance three mainstream bands before graduation. We need to gather information from successful classes and share ideas with callers and clubs having problems. If any good ideas come in, I'll write another article to report solutions.

JEANNE MOODY

This months column is going to be mostly a public forum type article and aimed at you Square Dancers.

How would you like to walk into club some night & find three Callers at your disposal? Sounds fine so far, doesn't it? But then what would you do if all three started calling their own favorite patter at the same time? You would be confused, to say the least. Sometimes it seems to me I get this exact same feeling as I read thru the inexhaustable list of new movements. It's no wonder we have more dancers on the out side looking back over their shoulder & sadly waving goodbye to the fun activity they thought Square Dancing was going to always be. Many articles have been published on this same subject and always to the same avail. But, I remember when I learned to Square Dance and the Caller sold it to me as an activity in which we would always have fun. Perhaps some people need a challenge in life, well, so do I, but not when I'm playing! I also remember each time I start teaching a beginner class how the dancers are told it's a fun activity. But, too many Callers forget what they say, too many fail to realize the dancers are tired of having their brains picked & prodded to learn something new. And because we are the Caller they will go ahead & learn it out of respect. Too many Callers invent things just to have their names in print, too many Callers want to be first at anything. But wouldn't it be nice to be first at not drowning the dancers with new stuff? I guess lots of Authors, if you can call them that, really tax their mentality to think up something new. Why, it even took two Callers to write "Lift Off", and --- I'm still wondering if the one who wrote "Choreo Caper" has ever found his way back from where "it" started. It would delight me if someday a Caller would write something so profound he couldn't decide what to name it and he ended up calling it a "Bucket of Trash".

KRAZY DAZYS .. We were raided by BARBARA BRADFORDS class & the Hayshakers along with their caller, CHUCK ACELIN. Our Anniversary Hoedown was'n't exactly as we expected, but circumstances somewhat oimitted the attendance. ERNIE KINNEY did a great job calling, and there was plenty of food for all. Club night we had live music with a new group that has'n't found a name as yet, but they are as follows, BUCK LATHROP, HOWARD JACKSON, on the Guitars, GARY FERNANDEZ on the drums, & HOWARD SUTTON with the fiddle. BRAD & this group made a sensational night for 15 squares. Keep your eyes & ears open for these guys in the future. Our election gave us BILL & CAROLE McDOWELL, SAM & HELEN FLANNERY, & ROY & MAY FRATES. They decided to keep yours truly for another year as Publicity.

FROM THE DESK OF Ken

By the time you read this we should be on our way to Kirkwood Lodge, Lake of the Ozarks, Missouri, for a week of Square Dancing & a much needed vacation. We will dance to Marshall Flippo, Frank Lane & Manning & Nita Smith. We will fly back there with our good friends Doc & Dorothy Koebel from Gustine. After a week of enjoyable dancing & friendship, we will start heading home with our kissing cousins, Ken & Eunice Davies in their beautiful 32' Vouge Moter Home (the only way to travel), with some dancing in Colorado & Arizona planned along the way. We will end up at Anaheim for the National Convention.

Meanwhile back at the ranch ... Our son Dan, home from College for the summer, will baby sit the house, mow the lawns & water the yard, but will not be answering questions for Square Dance News on the phone. So if you have magazine problems or questions, save them till July 1st when we will be back home.

Square Dance News may be purchased at Billee's, Kirkish's, Gene & Marylous Dance Supply, The Jubilee & J & J Barber Shop.

Our Chief Editor (Audrey) said, "From now on all news articles must be signed or they will not be published, No Exceptions". Publicity people, if you send in a club news article make sure you sign your name to it & we receive it by the first of the month for the following month.

SPINNING WHEELS 100% SIGN UP FOR THE NATIONAL CONVENTION, ALSO THE ONLY CLUB TO HAVE 100% SUBSCRIPTION TO SQUARE DANCE NEWS.

SKIRTS & FLIRTS .. Our plans for the coming year are, a roller skating party, family picnic, campout train ride for dinner in Felton, a night at the Melodrama and wine tasting party to name a few. We want to thank ED SANDERS for filling in for HAROLD while he was in Chicago for Callerlab. We all enjoyed his calling. Good to see TOM & VAL HIATT dancing with us again while they were visiting in San Jose. Many of our members are looking forward to National Conv. where GEORGE & ANN HOLSER are in charge of one of the smaller halls. Hope to see you there.....LYLE & MARY BETH

MERRY-GO-ROUNDS .. We have a new theme song "Merry go round of love", and if you don't know it come visit us & learn it. LEOTA SHAW & ED MARKS are turning in to be regular guests, and we would like to welcome EDITH & WIN BARNES, our new members. We will be dancing at Laurel School for the summer, and we enjoy visitors, so come see us.....MARIE & MILT

CIRCLE SQUARES .. We have temporarily lost MARSHA & DENNIS CONWELL due to MARSHAS broken leg. As a result CAROL & DON REEVES have been chosen as the new sheriffs. We added another 2 squares to the club with graduation of our beginners class. We're happy to have them join us. Our Hoedown with live music by "The Last Train Home" was so much fun we decided to sponsor another one. Check our add for details.....VICKY & WALT

MORGAN HILLBILLIES .. Two squares traveled to Fremont to attend the Keeways' Hoedown. One square made it the next day to the Circle Squares' afternoon Hoedown. We sure do love to dance to that Blue Grass Music. We are planning a summer Barbecue & family picnic. We think it will be sometime in June. Flyers have been made for our annual "Sky-rocket Capers" Hoedown June 12. **ANDY RAWLINSON** will be the guest caller & we will have **DWAIN & JUDY SECHRIST** on round.**BETTY & RED**

★ **SANTA CLARA VALLEY SQUARE DANCERS ASSOCIATION** ★

*** Presidents Message ***

Everyone knows about the 25th National in June and many of us plan to attend. Publicity was timely and effective and will result in the largest Square Dance in History.

Now we would like to help publicize two of our local events. First comes the Flag Day Parade in San Jose, June 13. SCVSDA will sponsor a float with dancers in 25th National dress & other "red, white & blue" costumes. **ARLAN WIGHT** will call and **ANDY VAN DEROSTYNE** will again furnish his motor home to pull the float. Last year we were awarded 2nd place Trophy. We hope to take first this year!

Our second event is the part that Square Dancing will play in San Jose's Bicentennial Celebration, July 3rd & 4th. A 16 block downtown area will be cordoned for a mammoth old fashioned, Street Fair. SCVSDA has the Civic Auditorium to present Square Dancing to the public. See our ad and watch the news media for particulars.

At this dance you will have your first opportunity to see our own Pageant of Square Dance History. Members of 4 clubs have been busy for several months making costumes and learning dances of the past. Thanks to **BETTY & DON BOLANDER & JAY & MILLIE KLASSEN** for organizing the group.

Dances of the 1850's, including the Kentucky Running Step, will be presented by Dancers from the Skirts & Flirts with **KEN OBURN** calling. Then we jump 100 years, the Squares & Flares, with **JAY KLASSEN** will dance 1940's style. The Spinning Wheels, with **BARRY BINNS**, a retired caller from the 1950's, will present dances from that era. The 1960's dances will feature members of the Silver Dollars, **GARY CARNES** calling. The final portion of the Pageant will be Dancers in the 25th National Dress doing movements of the 1970's with **ARLAN WIGHT** calling.

Let's fill the floor with squares and show everyone, how much fun it is to Square Dance.

THE TEN COMMANDMENT'S FOR SQUARE DANCER'S

I

THOU SHALT - honor thy Caller and harken to his voice--for thy success depends greatly upon his words.

II

THOU SHALT - exchange greetings and be Friendly to all in thy group, lest thee be labled a snob and unworthy of thy title -- SQUARE DANCER.

III

THOU SHALT NOT - ridicule those dancers possessing two left hands -- but endeavor to help them distinguish one from the other.

IV

THOU SHALT - strive to dance in different squares -- thereby giving to all, the benefit of thy fine personality and great experience.

V

THOU SHALT NOT - anticipate nor dance ahead of thy Caller for he is of feindish nature, and possessed of evil powers to foul thee up and make thee appear an idiot in the eyes of thy fellow dancers,

VI

When thee has goofed - THOU SHALT NOT - moan and belittle thy Caller, thy Partner, nor the slippery floor for thine own stupid mistakes.

VII

THOU SHALT - bathe diligently before the dance -- thereby creating a pleasant aroma for they Partner and leaving the more earthly smells to the Factory and Barnyard.

VIII

THOU SHALT - remain silent while thy Caller gives advice and instructions lest he go berserk and numble to himself and offer to break records on thy unworthy head.

IX

THOU SHALT NOT - partake of strong drink before, nor during the dance -- lest thy mind becomes befuddled & thee ends up with thy foot in thine own large mouth.

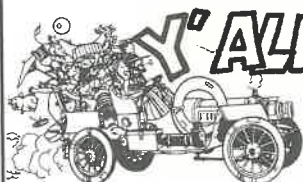

X

THOU SHALT - strive to observe these COMMANDMENT'S and thy reward shall be great. Many friend's shall thee have, and thy name shall be listed among the finest people -- THE SQUARE DANCER.

BARNYARD BUMPERS .. We enjoyed hosting our first Hoedown. We would like to thank RUBEN ALCALA, ROBBIE ROBERTSON, KEN KEMILLE & JAY KLASSEN for a successful Hoedown. True to our name, our theme was strickly barnyard, with our animals made by students of two of our members. Our thanks to the classes of MARIE LAMB & VI SULLIVAN. We even had barnyard animal sounds for a while, until our caller broke that record accidentally, of course. Graduation was held with a potluck dinner. It happens in a flash but the memory of it lasts forever.
 It cannot be begged, borrowed or stolen, but is of no earthly
 good to anyone until it is given away. So if in your hurry
 you meet someone who is too weary to smile, leave one of yours,
 for no one needs a smile quite as much as he who has none to
 give!

It takes only seventeen muscles to smile ... forty three
 muscles to frown ... conserve your energy ... SMILE!

SQUARE 'EM UP!

BACHELORS 'N' BACHELORETTES .. The club held a graduation party for the beginners class. In spite of the initiation activities most of the class members joined the club. We all join in welcoming them heartily: June 28th the Bachelors 'N' Bachelorettes of San Jose, San Francisco & San Mateo are co-sponsoring a dance in honor of the Japanese Square Dancers who are coming to the National in Anaheim. The dance is FREE and will be held at the College of San Mateo at 1700 West Hillsdale Ave. San Mateo. August 1st the Northern Regional Bachelors 'N' Bachelorettes will hold a colossal picnic & Square dance at Elk Grove Park. All singles are invited, for info. contact the San Jose B 'N' B's.....RUTH

HAYSHAKERS .. We had a box dessert party night where the men bid for their dessert. Our Anniversary Hoedown was a huge success, the floor was full of happy dancers and the refreshments were really great, thanks to the good cooks. The trophy for the club with the most dancers in attendance went to the Krazy Dazys (they won last year too.) Our class graduated in May. We're growing bigger & better all the time. Our Caller **CHUCK & JERRY ACELIN** are leaving for Hawaii for a much earned vacation. We wish them fun & a good trip.....CLAUDIA
